DEAR FRIEND OF THE FOUNDATION,

There's something powerful about standing on a field.

It's not just grass or turf — it's where dreams are chased. Where teammates become lifelong friends. Where a young person's belief in themselves can begin with a single goal... and grow into something much bigger.

Here at FMCC, we've always believed in more than just education. We believe in hope. In opportunity. In second chances and first-generation pride. And now, we're asking you to help us build something that carries those values forward:

A field that lifts our students, honors our region, and brings us together.

Right now, we're in Phase I creating a turf field that will serve as a true home — for athletics, community events, youth programs, and so much more.

But it's more than a playing field. It's a statement.

That **our students deserve the best.**
That our **region is worth investing in.**
That we **believe in building something that lasts.**

We've come a long way — and your gift could take us all the way.

Thanks to generous donors, we've already raised over \$650,000. We're almost there — and we've been given an incredible gift:

Every dollar you give will be matched from New York State.

That means your generosity goes twice as far.

Because when you invest in this field, you're doing more than funding turf. You're making sure:

- A student athlete with no other way to afford college finds a path forward.
- Our local soccer community will have access to play on a top-of-the-line turf field.
- A family has a reason to gather, right here in their hometown.
- An alum feels proud to say, "That's my college."

Let's build it — together.

No gift is too small. Every dollar is doubled. And your impact will live on in every student who steps onto that field — for years to come.

Give now at www.foundationoffm.org Or call us at (518) 736-3622 x8020 to talk about monthly gifts, naming opportunities, or legacy giving.

Together, we can finish what we started — and create something extraordinary.

With deep gratitude,
THE FOUNDATION OF FMCC

"It's not just about the sport — it's about feeling like I belong somewhere. That someone believes in me."

— **FMCC student athlete**
