

Foundation of

Fifty Years of Impact: 1976-2026

Honoring Our Past, Building Our Future

The Foundation's Golden Milestone

Fifty years ago, The Foundation of FMCC was established with a singular, bold vision: to enhance Fulton-Montgomery Community College through positive regional community relations, and to develop private funds to advance educational opportunities for students, staff, and the community. By generating, processing, and allocating gifts, the Foundation supports efforts that enhance the quality of programs by funding scholarships, new academic initiatives, technology, endowments, faculty/staff development, athletic programs, and capital projects. Today, we stand at a historic crossroads, celebrating five decades of unwavering commitment to our students and our community.

The Faces of Our Impact

The true story of the Foundation is not found in balance sheets, but in the people we serve. We reflect on the students, our faculty, families, and our community whose paths were forever changed by our supporters' investments. Whether it provided state-of-the-art technology in our Cyber Security lab, simulation labs for our health care programs, the FAM Financial Technology Center, the Perrella Gallery for our local artists, the RAO Theater for our productions or our turf fields for the student athletes and community, these stories of "joy in resistance" and progress are what make this milestone meaningful.

A Shared Celebration

This achievement belongs to our donors, partners, and volunteers. We invite you to join us throughout this anniversary year as we celebrate our new athletic turf field we have built together. As we look toward the next fifty, we are reminded that *"The great use of life is to spend it on something that will outlast it"*. Thank you for being part of a legacy that truly lasts.
